

Dear commercial partners,

Let us announce You, that on 31st of January 2017 was 85 % share in the company PROFILY, s.r.o. sold to the company ES Venture s.r.o.. This company is 100% owned by the Israeli company Ein Shemer Rubber Industries A.C.A. Ltd. (www.esrubber.com), which by this transaction became to be the strategic partner for PROFILY. ES Rubber is the important Israeli rubber company founded in 1968. The company is very innovative, with the production of many rubber products, many of them on the top world level, with commercial representation all over the world, with its own development and production of the rubber compounds. This strategic partnership brings to PROFILY the opportunity to sell their production on the markets non touched till now by them as well as enlarges their offer by the products produced by the partner.

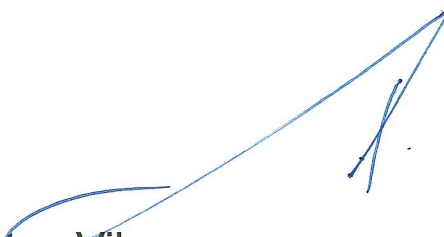

There are no changes as far as the organization structure, personnel, technical or commercial functioning of PROFILY are concerned. Please take as a guarantee of this also my share in PROFILY as well as my continuing work in PROFILY as a CEO.

We believe, that the relations with you, our present commercial partners, will be even strenghten by this transaction and we look forward very much to our further collaboration!

Yours sincerely,

Martin Lövy
PROFILY - CEO

Natan Vilner
ES Rubber – Managing Director
PROFILY – Executive Director
